EXPERIENCE

FRESHER

PROJECTS

Tours Ticket Booking (Final Year Project)
Developed a Responsive Tours Ticket Booking System. Used HTML for structure, CSS for design, and JavaScript for dynamic interactions. The project also integrated Bootstrap to ensure a mobile-friendly interface
• Technology Stack: HTML, CSS, JavaScript, Bootstrap.

Food Order Website (Ongoing Project)
<http://foodorderwebsite7.zya.me/>
Developing a food order website using PHP and MySQL for backend operations. The project includes essential features such as item selection and order tracking, while managing orders efficiently without integrating a payment gateway.
• Technology Stack: PHP, MySQL, HTML, CSS, JavaScript.

SUMMARY

To leverage my expertise in web development, focusing on PHP, CodeIgniter 4, React.js, and Bootstrap, to drive innovation and contribute to a dynamic organization. I aim to continuously expand my skills in full-stack development while delivering impactful solutions.
